ACTIVE CONSTITUENT: 10 g/kg PERMETHRIN 25:75

As used by Professionals

Kills ants and wasps on contact

Can be applied into difficult to reach places

**350 g
Net**

A ready to use dust for the control of ants and European wasps around the home.

Batch Number:

Date of Manufacture:

Ancillary panel

HOW TO USE:

This is a ready to use dust; no further mixing or dilution is required. This product kills ants and wasps on contact.

DO NOT apply in wet or damp areas as the product will not be effective.

The simple-to-use pack allows easy and targeted application of the dust. Open the nozzle and apply the dust to surfaces by lightly squeezing the container. For best results apply the dust as a light even application to the surface (10g/m²). Heavy application will not improve results. For further information on how best to apply in various situations refer to the table below:

SITUATION	HOW TO APPLY
Ant nests	Insert nozzle into nest entrances and lightly squeeze the container to deliver dust deep into the nest tunnels. A light application should be applied which allows ants to move through the dust and distribute it further into the nest.
Ant activity outside of the nest	Lightly apply to areas of ant activity eg. ant trails, into cracks in pavers, holes in brickwork and mortar etc. where ants are seen.
European wasp nests	Apply powder through entrance holes (125 - 250 g of product may be needed per nest depending on size of nest and number of entrance holes). Treat at night whenever possible to avoid being stung. Wear protective clothing to prevent being stung (eg. long-sleeved overalls buttoned at wrist and throat, gloves, hat and bee-veil).

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED

CAUTION

DO NOT use on edible plants. DO NOT allow pets or children to enter treated areas. Dangerous to fish. DO NOT allow chemical containers or dust to get into drains, sewers, streams or ponds. Remove or cover fish tanks during treatment. Dangerous to bees and reptiles. DO NOT apply directly on humans, pets, exposed food, food preparation areas or food utensils.

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, dry place out of reach of children. Do not store in direct sunlight. Dispose of empty packaging by wrapping in paper, placing in plastic bag and putting in garbage.

SAFETY DIRECTIONS

Avoid contact with eyes and skin. Avoid inhaling dust. When using the product wear rubber gloves. Wash hands after use.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (phone 13 11 26).

Exclusion of Liability

This product must be used strictly as directed, and in accordance with all instructions appearing on the label and in other reference material. So far as it is lawfully able to do so, Bayer CropScience Pty Ltd accepts no liability or responsibility for loss or damage arising from failure to follow such directions and instructions.
